Windows lifecycle fact sheet

Last updated: April 2014

Every Windows product has a lifecycle. The lifecycle begins when a product is released and ends when it's no longer supported. Knowing key dates in this lifecycle helps you make informed decisions about when to upgrade or make other changes to your software. Here are the rights and limits of the Windows lifecycle.

End of support

End of support refers to the date when Microsoft no longer provides automatic fixes, updates, or online technical assistance. This is the time to make sure you have the **latest available update or service pack** installed. Without Microsoft support, you will no longer receive security updates that can help protect your PC from harmful viruses, spyware, and other malicious software that can steal your personal information. For more information go to [Microsoft Support Lifecycle](#) .

Client operating systems	Latest update or service pack	End of mainstream support	End of extended support
Windows XP	Service Pack 3	April 14, 2009	April 8, 2014
Windows Vista	Service Pack 2	April 10, 2012	April 11, 2017
Windows 7 *	Service Pack 1	January 13, 2015	January 14, 2020
Windows 8	Windows 8.1	January 9, 2018	January 10, 2023
